Eye On Detail 3D Laser Scanning  
367 Muehl Road  
Seguin, TX 78155

Dear William and Dana,

We just wanted to drop you a quick note to let you know how pleased with your service we are! We have manually tracked our bulk, dry fertilizer inventory for years. We feel we have had better than fair accuracy.

Your latest scan performed on September 30 was almost identical to our manual counts! The technology you utilize is extremely accurate according to my boss, who has been keeping this inventory for many years.

Thanks for your service! We'll see you again in April, 2017!!

Lisa Shoemaker  
General Manager
